star mC-Print™

mCollection

True Omni-Channel POS Printing Solutions

– the future of POS connectivity with Star's new mC-Print.

Continually pioneering solutions that seamlessly combine sophistication with high functionality, Star's **mC-Print2™** and **mC-Print3™** aesthetically match the sleek, modern design of tomorrow's retail, bar and hospitality environments.

The feature-rich, front-feed compact printers offer exceptional functionality with 5 interfaces in the one printer and multiple peripheral hub operation.

Delivering low cost, sophisticated & sustainable solutions.

ᵐC-Print2™

Data & Charge

iOS / MFi USB Connection

Traditional USB & Unique Lightning "Data & Charge" USB Ports

Star's unique iOS lightning cable port for iPad, iPhone and iPod communication provides device charging as well as direct cable data transfer between Apple iOS devices and the printer – in the same way a traditional USB printer talks to a terminal! This will simplify set-up as well as eliminate the need for pairing and passwords, making life so much easier for employees. Just check your software provider supports direct iOS communication with a Star printer or email **support@star-emea.com**
