PRODUCT SPEC SHEET MC9200 MOBILE COMPUTER

MC9200 MOBILE COMPUTER

INDUSTRY LEADING GOLD STANDARD FOR MOBILITY IN DEMANDING ENVIRONMENTS

The MC9200 is the next generation in the industry-leading rugged MC9000 Series, now upgraded to support your next generation mobile applications. The rugged mobile computer that evolves to meet changing business needs brings you the same signature rugged design, best-in-class bar code scanning and dependable operation, now with the power to run applications with highly-intuitive interfaces that will further simplify processes and increase worker productivity in your toughest environments. And you get well-proven technology you and your workers can count on 'every day, millions of users around the world count on their MC9000 Series mobile computer to better manage inventory in warehouses and manufacturing plants, track baggage on airport tarmacs in any kind of weather and keep weaponry and vehicles on military bases in peak operating condition. The MC9200 'the next evolution in the world's leading mobile computer for demanding environments.

The power you need to support any application

A dual core 1 GHz processor, 2GB of Flash memory, up to 32GB of additional SD memory and Microsoft's advanced mobile operating systems provide the power to run complex ERP applications 'simultaneously.

High-speed 802.11a/b/g/n Wi-Fi

Support for the fastest Wi-Fi connection available today '802.11n' provides your workers with the best possible wireless voice and data experience.

Proven rugged construction, ready for your most challenging environments

Every day, MC9000 Series devices deliver reliable performance, despite everyday drops on concrete, subzero cold, extreme heat, dust and exposure to splashing liquids.

Easy-to-read display in any lighting condition

The 3.7 inch high-resolution backlit color VGA touchscreen display provides excellent readability 'even in bright sunlight.

Government-grade security

Government-grade FIPS 140-2 Level 1 certification secures Wi-Fi and Bluetooth wireless communications, without impacting device or application performance.

Six advanced scan engines 'the most scan engine options

No matter what type of bar codes are in use in your facility, there is a scan engine option that is optimized for rapid-fire capture of 1-D, 2-D, driver's license, DPM codes and more 'even if the codes are dirty, damaged or poorly printed.

Six interchangeable keypads for superior customization
